

VISITATION PLAN (SNF)

Center: Jersey Shore	Date: April 6, 2021
--------------------------------	-------------------------------

(Page 1 of 3)

	State: Pennsylvania	County: Lycoming	County Positivity Rate Color: Yellow
✓	No new active cases of COVID-19 in patients or employees identified in previous 14-days (considered for indoor visitation only).		
	Visitation discontinued (indoor only) due to new active case of COVID-19 on: _____		
✓	<p>When a new case of COVID-19 among patients or employees is identified, the center will immediately begin outbreak testing and suspend all visitation (except that required under federal disability rights/law) until at least one round of center-wide testing is completed. Visitation can resume based upon the following criteria:</p> <ul style="list-style-type: none"> If the first round of outbreak testing reveals no additional cases in other areas of the center, then visitation can resume for patients in areas/units with no COVID cases. Center will suspend visitation on the affected unit until the center meets the criteria to discontinue outbreak testing. If the first round of outbreak testing reveals one or more additional cases in other areas/units of the center, then centers should suspend visitation for all patients (vaccinated and unvaccinated), until the center meets the criteria to discontinue outbreak testing. 		
✓	<p>Employee testing conducted per current county positivity rate. Testing is completed per CMS requirements and designated county positivity rate that is updated weekly.</p> <ul style="list-style-type: none"> Low (green ● = < 5% or with 20 tests in past 14 days) Medium (yellow ● = 5-10%; OR with < 500 tests and <2,000 tests/100k and >10% positivity over 14 days) High (red ● = >10% and not meet criteria for green or yellow) 		
✓	Center employee screening and temperature recording completed upon entrance and exit of center.		
✓	<p>Outdoor visitation is preferred. Aside from weather considerations (e.g., inclement weather, excessively hot or cold temperatures, poor air quality), an individual patient's health status (e.g., medical condition(s), COVID-19 status), or a center's outbreak status, outdoor visitation should be facilitated routinely.</p> <p>Designated outdoor visitation area: <u>rear porch (for dementia unit residents) & front patio</u> (for all others)</p>		
✓	<p>Centers should allow indoor visitation at all times and for all patients (regardless of vaccination status), except for the following situations when visitation should be limited due to transmission risk:</p> <ul style="list-style-type: none"> Unvaccinated patients, if the center's COVID-19 county positivity rate is > 10% and <70% of patients in the center are fully vaccinated; Patients with confirmed COVID-19 infection, whether vaccinated or not until they have met the criteria to discontinue transmission-based precautions; or Patients in quarantine, whether vaccinated or not, until they have met criteria for release from quarantine. 		
✓	<p>Indoor visitation should occur in areas that can be accessed without traveling through patient care areas. Designated indoor visitation area: <u>front lobby</u></p>		

VISITATION PLAN (SNF)

✓	Visitation should be scheduled to accommodate COVID-19 negative and COVID-19 recovered patients.
✓	Virtual visits should continue to be scheduled for patients in transmission-based precautions.
✓	In-room visitation should be arranged for compassionate care / end-of-life patient situations at all times regardless of a patient's vaccination status, county COVID-19 positivity rate, or an outbreak.
✓	Visitation limited to <u>20</u> minutes per visit to accommodate scheduling as many visitations as possible.
✓	Visitor screening, temperature recording, education and review of <i>Visitor Guidelines</i> completed upon arrival to center. Visitor entry is to be denied if positive screening for signs/symptoms or observation of signs or symptoms or those who have had close contact with someone with COVID-19 infection in the prior 14 days regardless of the visitor's vaccination status.
✓	Visitors are encouraged to become vaccinated when they have the opportunity but should not be required to be tested or vaccinated (or show proof of such) as a condition of visitation.
✓	Designated Visitation Supervisor - Identified on the <i>Visitation Schedule Log</i> .
✓	Weekday visitation hours <u>Mon & Fri 1p-3p; Tues & Thurs 9:30a-11:30a; Tues 4p-7p; Wed 4p-5:30p</u>
✓	Weekend visitation hours <u>Sat 10a-12p; Sun 12p-2p</u>
✓	Number of visitors per patient - restricted to one visitation session of up to <u>2</u> visitors per patient at a time as the schedule allows or a state requirement that is stricter.
✓	Max number of visits per center per day based upon space available to hold visits, square footage of space, one supervisor for each visitation location, maintenance of social distancing. <ul style="list-style-type: none"> • Maximum number visits conducted simultaneously is <u>1</u> • Maximum number of visitors/center at one time is <u>2</u>
✓	Visitation areas are sanitized before and after each visit with EPA approved disinfectant.
✓	Food/drinks may be brought in for patient but cannot be consumed or shared during visit.
✓	Social distancing of at least six (6) feet maintained during visit. If the patient is fully vaccinated, they can choose to have close contact (including touch) with their visitor while wearing a well-fitting face mask and performing hand hygiene before and after. Visitors are required to physically distance from other patients and employees in the center.
✓	Hand hygiene must be completed by visitor, patient and employees just prior to visit, anytime there is a breach in infection control practices and post-visit.
✓	Patient and visitor both masked for duration of visit. Employees continue to follow universal masking and eye protection during visit.
✓	Visitors observed not to follow visitor guidelines, may be redirected or visit terminated.
